THESE JOKES CRACK US UP

How do chiropractors swim laps?

They do the back stroke.

"I never believed a chiropractor could solve my back problems. Two weeks later, I stand corrected."

Why was the chiropractor a good interrogator?

He always gets the suspects to crack.

What do you call chiropractors who have each other's backs?

Vertebros.

Hello, summer!

It's one of our favorite times of the year! Vacations are imminent, school is out, and we're planning to give away a brand new grill. Who doesn't want to spend their summer grilling burgers with a cold drink in hand?! Don't miss out on the fun!

There are two ways you can participate in our giveaway:

Write a review of our neurologically-based care on Google! If you've written a review before, see our front desk team for other ways to participate. This task is worth one entry in our giveaway!

Refer a friend or family member to our office! If they show up for their first appointment, you'll receive five entries in our giveaway.

Once you've completed one (or both!) of these tasks, see our front desk team to enter your name in the drawing! The winner will be announced on June 14.

RELIEF AT LAST

We have been blown away by the tremendous results of our neuropathy program. Veronica is just one practice member who has experienced incredible transformation! She recently shared her experience with us:

"Fourteen visits in, and I wonder how I ever lived without these guys. I can now get up in the morning without any pain, something I thought would never happen. I have been able to cut down on all of my medication, eliminating a few of them all together and working towards eliminating some more. It is awesome to feel like myself again! This place is just great, and I wish I would have found them a long time ago!"

We'll be celebrating Veronica's story all month! Thank you to everyone who shares their story with us—it motivates us to see even more transformation take place!

WE LOVE OUR MOMMAS!

It was such a joy to hand out flowers to all of our mothers last month! We had the opportunity to celebrate more than 400 women the week before and after Mother's Day. We couldn't be more grateful for all of the mothers we also get to call practice members. We hope you feel celebrated each and every day!

MEET CARISSA

Hello! My name is Carissa. I've lived in Iowa my whole life and grew up on a farm in a small town. I then attended Indian Hills and became a Radiologic Technologist. In my free time I enjoy spending time with my family and boyfriend, Zach, doing activities outside, and helping my dad farm any chance I can get. I'm excited to be a part of the Vero family and can't wait to help others on their healing journey.

You can find Carissa in our X-ray room, taking and analyzing X-rays. Be sure to say hello on your next visit!
